Michele Longo O'Donnell three books, *Of Monkeys and Dragons: Freedom From the Tyranny of Disease*, *The God That We've Created: The Basic Cause of All Disease* & *When The Wolf Is At The Door: The Simplicity of Healing*, outline the life principles for healing and provide the readers with instruction manuals for living in freedom. Michele is also the host of a radio show called *Living Beyond Disease*.

Michele will reveal healing techniques she has gleaned during the past 30 years of treating patients. Michele has recognized that there are principles of Life, that when understood and practiced, result in healing, no matter what the disease or symptoms.

Aman Motwane is the author of *First, Change How You See the World* and *Yes, You Can Change the World* and the groundbreaking, interactive online course on abundance, *UniqueAbundance.com*. Aman was honored by Religious Science International with their Annual **Peace Award**.

Aman will guide us in a session called *Awakening to the Next Level*—a level that is simultaneously deeper and simpler and *necessary for these times* — where love and optimism and abundance find you, rather than the other way around.
